PROFILE

Web Developer with 2+ years of experience building and maintaining responsive, SEO-optimized websites across WordPress, Webflow, Framer, and headless CMS platforms. Currently build and manage a WordPress website from scratch for a global B2B SaaS and technology marketing agency, using custom HTML and CSS code blocks. Also work within existing Webflow, Framer, and headless CMS websites to implement updates, fixes, and new components. Delivered 35+ websites across the food, retail, and services industries, improving search visibility, page performance, and client satisfaction.

PROFESSIONAL EXPERIENCE

Web Developer (WordPress, Webflow, Framer, Headless CMS)

May 2026 – Present

Koda Integrated Marketing Services LLP, Bengaluru

- Build and manage the company's WordPress site from scratch for a global B2B SaaS/tech marketing agency, using custom HTML/CSS code blocks and Elementor.
- Work within existing Webflow, Framer, and headless CMS websites — implementing updates, content changes, and new components on live client sites.

Web Developer

May 2025 – May 2026t

Digital Pitha, Bengaluru

- Built and delivered 15+ responsive WordPress websites across multiple industries using mobile-first design principles.
- Redesigned Wix & Shopify product pages, reducing bounce rate by 10–20% and improving user experience.
- Implemented on-page SEO strategies (meta tags, schema, internal linking, image optimization), increasing search visibility by 10–25%.
- Created 10+ UI/UX wireframes in Figma and developed pixel-perfect, production-ready web pages.

Web Developer

Dec 2023 – May 2025

Shanthatech Digital Solutions, Bengaluru

- Developed 20+ custom web pages and UI components using HTML, CSS, and JavaScript, ensuring cross-browser compatibility.
- Managed 20+ WordPress websites, improving site performance and reducing downtime through regular updates and optimization.
- Executed 10+ website migrations, hosting setups, and backups with zero data loss and timely delivery.
